

Bullying Committee Agenda
September 25, 2006

1. Is there a bullying problem at the schools of MSAD #40? What have we learned from previous surveys? (Gail) Will further surveys improve our understanding of the problem? What information would we need to get from a new survey that we haven't gotten already?
2. Review of the new bullying surveys for students. (Survey sub-committee) Will they teach us anything we don't already know? Should we survey staff? Should we survey the community? Everyone? If not, whom?
3. Where do we go after the surveys? Is this a job for newbies or is there an affordable, existing program run by qualified professionals that could meet our needs? Where could we get the money?
4. For next meeting---?
