During the week of December 8th-12th, 2008, the freshman class will be asked to fill out a wellness survey in English class. The survey was created by the School Social Work team of Chuck Nguyen, LCSW, and Chelsea Weiner, SW Intern, in conjunction with the Freshman Teams. It covers school safety, life stressors, and substance abuse. The purpose of this survey is to promote and support programming needs for our students. The results will be shared anonymously to help raise awareness about student issues and concerns. We understand that entering high school can be a difficult and confusing transition, and we want to do what we can to help the students. We want students at MVHS to have a good high school experience, and we think they are the best way for us to help with that goal.
