### Discussion Items:

Linda Pease presented the progress, for the current freshmen class, in meeting standards for a proficiency diploma.

She shared a standard report document that shows which standards are being taught and assessed in each freshman class. She also shared comments from the teachers, who teach these classes, on how well they felt students were doing in meeting these standards.

Kim shared an example of an NWEA mathematics student profile report. These reports give teachers data on their students' math achievement beyond the State assessment which is more very helpful to teachers.

The committee elected to not meet in December. The Curriculum Committee chair and Kim will communicate for the development of the January agenda.

Adjournment: 6:30 p.m.

All subcommittee meetings of the Board, except executive sessions, will be open to the public. All actions of the subcommittees will be taken openly and the deliberations leading to their action will likewise be conducted openly. The public and district employees are encouraged to attend subcommittee meetings. Subcommittee meetings are open to the public. Public input is welcomed but the Chair may need to limit discussion.
